This is how it works & holds price within ■, reaction swings at its best possible levels with #Candlesticks providing clarity on breakouts & breakdowns.

Most price action retaining with tools support & median levels. Next week shall be interesting ■ https://t.co/XIN54TOT41

#Nifty50 trend & demand supply zones via #AndrewsPitchfork.

Its a tool which is ignored by most traders & hence highlighting it here for better reference learning due to its relevance with current price action. pic.twitter.com/5G33NU9q8Z
