Presentation only for educational purpose and should not be seen as an investment recommendation.

 Healthcare

Tata Elxsi started investing in the medical device space about 3-4 years back and has developed end to end capabilities.

Right from Product development to Regulatory Compliance

As the healthcare industry evolves, medical devices, pharmaceutical, and digital health companies shift their focus to care affordability, accessibility, quality, and efficiency.

To address the needs of affordability, efficiency Tata Elxsi provides services to clients across areas like:

  
Integrated Design & Engineering

  
Digital & Connected Health

  
Regulatory Compliance
