Alert in Tata Elxsi - with stock forming H&S at top. I would exit with the break of the neckline. It needs to cross the dashed line for H&S failure. My SL at 4030. https://t.co/rO4f8hkPFF

Tata Elxsi - Daily I track this chart and waiting for a big kill in this. You have to act like a cheetah sometimes waiting for the weakest hit.

There are times when you must sit patiently to catch your prey. pic.twitter.com/CRoBHIetHE
