The old, outdated infiltrated low vibrating 3D system is over. We bring it all down to build a new one. Authorities of prophecies are of divine nature. We're heading in a direction towards conclusion.

It's not too late....

The Cabal has many layers & secretly controls everything on our planet. But, so many on this planet are completely clueless to who they truly are. Humanity is rapidly running out of time to prepare for coming events. The Cabal is a very carefully structured organization,

a hierarchy of non-physical dark matter that feeds off negative energy. This energy has no need for material possessions; only more negative energy which is its life force.

This energy has consciousness just like non-physical light matter or positive energy which humans

mistakenly refer to as God. Benevolent Galactic beings will teach us in the not too distant future that they consider the God construct mere dogma, superstition for the purpose of control. Love is of the highest frequency, the highest frequency of light which humans interpret as

humans interpret as love & bliss. God is light, extremely high cosmic energy. We are in the process of returning to balance, there must be balance always. We are experiencing this incredible turbulence & chaos on this planet currently because everything is out of balance &

right now everything is being brought back to balance.

The lower levels of the Cabal control structure of Earth control the non-humans & humans who are willing to serve its constant need for sustenance; which comes in the form of despair, suffering, disease, war, anger, pain &

all negative energy. These examples are in theory their batteries(They feed off us). This is why the Cabal keeps Earth in a constant state of destruction. It's all about energy harvesting. These humans & non-humans have infiltrated every organization on Earth;

beginning with the secret societies & have gradually infiltrated all governments & corporate entities which they use to control the surface population. They are masters of deception & they often hide themselves & their intentions in plain sight of the people which they take

great pride in.

They are masters at causing problems & then offering solutions providing disinformation, raising hopes, causing positive energies then delaying or destroying those hopes creating negative energy; so in turn they harvest that negative energy to maintain control.

This is what they do with every action they take.

Earth is being transformed with higher light energy which will restore balance which was intended at the time of Creation(Not the biblical creation tale). Some people refer to this as the 5th dimension, the Age of Aquarius.

Every human should be focused on preparing for this event at this moment, this is why you are here at this time. Meaning, to be capable of integrating these higher frequencies into your human vessel. I call the people fighting these higher frequencies resistors.

Many are ill-prepared for what's about to occur.

There are many good men & women working tirelessly behind the scenes to liberate this planet & none of them are able to release the information on the true state of affairs currently happening.

The Cabal does not want us to believe this because they wish to take as many of us down with them at the moment of their inevitable demise. They simply cannot exist in the 5th dimensional frequencies & they know that. They know their reign is over hence,

the incredible desperation we're seeing currently on the surface.

Their intention is that our frequencies are sufficiently lowered; that our sense of self & our ability to trust & reason will be so badly damaged that we will have extreme difficulty accepting the truth when it

is revealed to us.
We are definitely in a spiritual war, a battle for our consciousness. The purpose of the upcoming event which no dates, times will be provided nor leaked; is to implement total transparency, honesty & peace on Earth & create equality for all.

Anything less will not be permitted.

Human beings have endured thousands of years of deception, wars, abuse, poisoning & the destruction of our planet. So, ask yourself, if we can handle all of this negative information, abuse, suffering etc.

but we're told we would not be able to handle the truth?
This is where transparency comes in, this is what you're being prepared for. The new energies of Aquarius will not permit power over others under any circumstances!!!

Many will not be able to handle this event; meaning the transparency of our true reality will shock a major portion of the population. This is the moment of surrender. Humanity has had a lot to learn in a very short amount of time but it's not too late.
