Did you know? Texas has many transformers made in China. Trump created an EO to stop purchasing any Chinese Transformers as they can embed software or harware to be remotely controlled by China 1st thing Joe Biden did is suspend EO for 90days.

Last year, Wall Street Journal reported that U.S. seized a Chinese-built transformer because officials believe “its electronics had been given malicious capabilities, possibly allowing a adversary to monitor or disable it on command.”

My name is Tony Bobulinski. The facts set forth below are true and accurate; they are not any form of domestic or foreign disinformation. Any suggestion to the contrary is false and offensive. I am the recipient of the email published seven days ago by the New York Post which showed a copy to Hunter Biden and Rob Walker. That email is genuine.

This afternoon I received a request from the Senate Committee on Homeland Security and Government Affairs and the Senate Committee on Finance requesting all documents relating to my business affairs with the Biden family as well as various foreign entities and individuals.
