Blackrock is buying every single family house they can find, paying 20-50% above asking price and outbidding normal home buyers. Why are corporations, pension funds and property investment groups

entire neighborhoods out from under the middle class? Lets take a look. Homes are popping up on MLS and going under contract within a few hours. Blackrock, among others, are buying up thousands of new homes and entire neighborhoods.

So who is Blackrock? Only the worlds largest asset manager and the leading proponent of The Great Reset. Theyre looking to redistribute -Get this- \$120Trillion dollars. The entire wealth of the worlds middle class and poor combined several times over.

As an example, a 124 new home neighborhood was bought in its entirety in Texas. Average Americans were outbid to a tune of \$32million. Homes sold at an avg if 20% above listing. Now the entire neighborhood is made up of SFR's. What are SFR's??

Single Family Rentals. Now, your potential lower to middle class home owner is positioned to be a permanent renter. This matters because for the lower and middle class owning a home is the most major part of any financial success, and future upward mobility.

This is wealth redistribution, and it ain't rich people's wealth that's getting redistributed. It's normal American middle class, salt of the earth wealth heading into the hands of the worlds most powerful entities and individuals. The traditional financial vehicle gone forever.

Home equity is the main financial element that middle class families use to build wealth, and black rock, a federal reserve funded financial institution is buying up all the houses to make sure that young families can't build wealth.

Thats right!

FEDERAL RESERVE FUNDED FINANCIAL INSTITUTE.

Let that sink in for a minute. Got it? They're using your tax dollars to fuck over the lower and middle class, and its permanent. Not 1 Pres. administration of bullshit. This is a fundamental reorganization of society.

So where does this position the average American in 30 years when its a given that every new neighborhood is to be bought up whole so they can be utilized as SFR's? It positions them as peasants. Being poor can be temporary condition bettered by upward mobility.

In the US and other nations home ownership is often the 1st and most vital step. This can provide for generational wealth and success. But as permanent, guaranteed renters youre pissing away a lifetime of equity and the chance for mobility. You just become a peasant.

The Great Reset is real. It is happening. This will be the greatest transfer of wealth, and greatest consolidation of power in the history of mankind. If they get away with it revolution will be the only cure. It will be awful. Wake up. Get active. Stop this now!!

This is warfare. Make no doubt about it. Lloyds bank in London is doing it, as is every great financial institute across the world. This must be stopped. Its a greater threat than the slow creep of Communism, BLM or anything else you can think of COMBINED. It is a death stroke.

Black Rock, Vanguard, and State Street control 20 trillion dollars worth of assets. Blackrock alone has a 10 billion a year surplus. That means with 5-20% down they can get mortgages on 130-170k homes every year. Or they can outright buy 30k homes per year. Just Blackrock.

Now imagine every major institute doing this, because they are. It can be such a fast sweeping action that 30yrs may be overshooting it. They may accomplish feudalism in 15 years.

People will say "They can't just piss away money on buying tens of thousands of houses that are all at a loss."

WRONG. YOU AND I CANT DO THAT.

They are fronting the federal reserve, and are financed by an endless stream of freshly created fiat money.

And whats the global reserve currency???? Oh ya... green funny money.

You may ask "Suppose the banks wont finance new housing?"

Or

"But Companies are buying them for way above asking price, can it last?"

Well, the banks are controlled by and in bed with the same cabal buying everything up. You think this will be corrected by market forces when it is a financial and political pincher movement pushed by the same cabal that stole the 2020 election & hid COVID Truth?

You are fucked.
