

STEP 2: Open #TradingView on your mobile and add all the watchlists that I'll provide you with.
I have attached a sample video on how you can add different #watchlist with the mobile app.

Watchlist

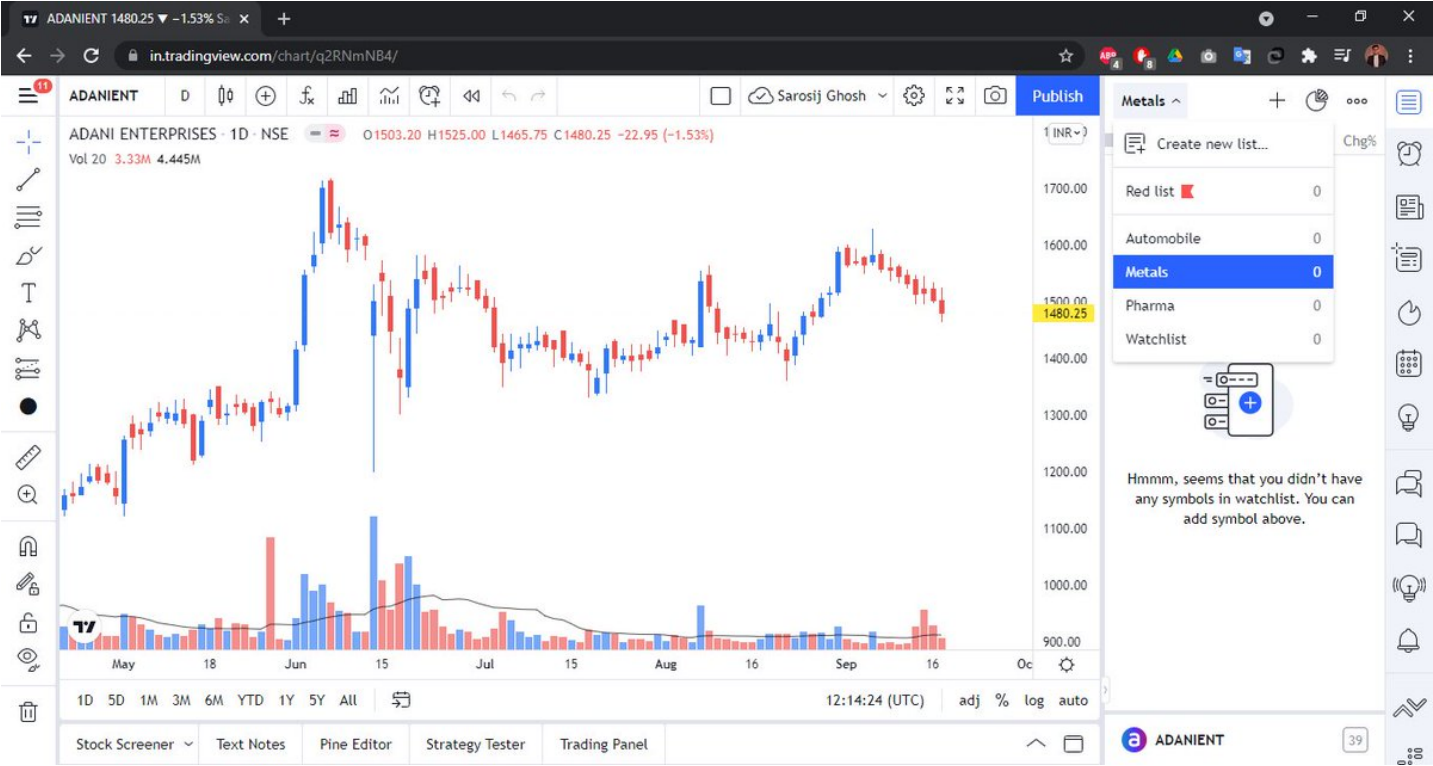

There are no symbols
in this watchlist

Add Symbol

Step 3: After adding the watchlists on the mobile app, refresh #TradingView on your desktop and voilà, you'll have the multiple watchlists you added on your mobile app directly on your desktop.

[Note: I added only 3 watchlists just to show you how it is done]

STEP 4: After you have added all the different sector watchlists, now its time to add the #stocks of that particular sector. This is not as tiring as adding the #watchlist with your mobile, you just have to copy and paste.

[Note: Remove the last comma]

The screenshot shows a Google Sheet titled 'Nifty 500 - Tradingview Watchlist'. The sheet contains a list of companies and their stock codes. The columns are labeled A, B, C, D, E, F, G, H, I, J, K. The data is as follows:
