Agree. Also Bannon suggesting that Fauci shld be beheaded & Lyn Wood calling for Pence's execution. These are Trump's close advisors. Did Trump ever publicly disavow?

> Very good that Rep Raskin is showing the long, consistent history of Trump instigating violence. This context is necessary. They should extend documentation to Trump's advisors -- like Roger Stone calling for a "bloodbath" since 2016 if Trump loses an election #ImpeachmentTrial
