BREAKING NEWS: Top Trump Fundraiser/Former Trump-Appointed RNC Official Elliott Broidy Charged with Federal Crimes; Broidy Is a Key Figure in the Proof Series Books on Trump's Bribery and Collusion with Foreigners—and Looks to Be Charged With Such Conduct

PS/ Broidy has a *lot* to tell federal investigators about Trump's illicit dealings in the Middle East. As with pedophile/now-federal-convict George Nader—one of Broidy's chief co-conspirators—if the feds don't cut a deal with Broidy to get info on Trump, Barr has put the fix in.

PS2/ Today is a day I want to reach out with warmth and appreciation to all readers of the Proof series—who've known this indictment was coming for well over a year and are probably as excited as I am that a key Proof-series figure is being taken down *just* as he deserves to be.

PS3/ There are associations between Broidy and Trump's mistresses, Broidy and Prince's mercenary companies, Broidy and Michael Cohen, Broidy and George Nader's illicit work with Saudi Arabia and the UAE... this is a *big* get for federal investigators, if they *want* it to be.
