President Trump is taking us into a Golden Age. Your vote hasn't mattered for a long time, but that is changing under Trump. Trump and Sidney Powell are going after the big kahuna, the Central Banking System.

The law is whatever the powers that be say it is. Humans are word controlled creatures. The reason why most politicians don't go to jail for doing things that we would put in jail for life is because they only go by Maritime Law. We are controlled by the law of the land.

The law of the high seas is the law of money. Anytime you use money you are under the law of the water. The law of the land is different everywhere because it's the law of different cultures.
The Statue of Liberty had to be put in water because its not the Statue of Freedom

its the Statue of Liberty. Liberty is what a sailor gets when he pulls into port on a ship. He is not free, he is given liberty. Words are not picked by chance. Words are very important. When you break the law you have to goto court. Why is it in a court?

Because it's a game for them!!! They really believe they own you! If you do not know the rules of the game you must hire a lawyer to represent you. Hire because they are higher than you in the eyes of Maritime Law.
All ships are female because they are carrying items for money.

When a ship pulls into harbor the captain has to give the port authority a manifest. All because the ship was not here before and now it is, so it has just manifested. All of the products on the ship have just manifested. The word captain comes from capital. The captain

represents the capitol on the ship. Wherever a ship sits in the harbor it is called its birth. This is true for airplanes too. When you were born, your mother's water broke. This is why you need a birth certificate. Your mother delivered you. When you order something online

they deliver it to you or have it shipped to you. You are a product. You came down your mother's birth canal. The dock or docker or doctor has to sign the birth certificate. Your social security number is traded on the stock markets around the world.

All churches are under Maritime Law. This is why churches or in dominations just like money. Religions are in the pockets of the banks. Royalty is under Maritime Law.
Since 1868 the United States has been under Maritime Law.

In the time of the wild west anyone could carry a gun anywhere. If one had a dispute with someone they could go out and have a gun fight. Why did the law not stop all this? Before 1868 every American was considered a Sovereign. In 1868 the corporation of the United States

U.S. is a privately owned corporation out of England.
What is a Kraken? It is a sea monster that attacks ships and brings them down. If it brings down enough of these ships it paralyzes and breaks the system. Banks have superimposed a legal system so they and whoever they want

to can be above the law of the land. Maritime law is very esoteric. We are all vessels, but are not the captain of our own ships. We let someone else be the captain of our ship. This is what the poem O Captain My Captain is telling us. Money is nothing more than energy.

Maritime law is to control the energy. You store energy in your body. You are a battery for the system without even knowing it. This is what the Matrix meant when it said you are a battery.
The only reason we pay taxes is because of national debt to the central banks.

No Federal Reserve or central bank then no taxes. This is the big secret of Maritime Law. The U. S. military was always used to enforce the central bank on other coits the Statue of Liberty. Liberty is what a sailor gets when he pulls into port on a ship.

He is not free, he is given liberty. Words are not picked by chance. Words are very important. When you break the law you have to goto court. Why is it in a court? Because it’s a game for them!!! They really believe they own you! If you do not know the rules of the game you

When you say you are a citizen of the United States you are saying you are an employee of the Corporation of the United States. All corporations have a president. The U.S. is a privately owned corporation out of England.

This is the big secret of Maritime Law. The U. S. military was always used to enforce the central bank on other co

untries, but now that the central bank in the U.S. has been over thrown they have to use propaganda. They are using ignorant people behind groups to try to over throw the U.S. and cause riots. The central banks will do anything to keep their strangle hold on the people.

Sydney Powell said ,“Release the Kraken!”, because they are going to pull the whole Maritime system down in the United States and possibly the world. Only the rich and powerful prosper on Maritime Law. When it falls in the United States and the rest of the world sees how good

the country is doing with Sovereign humans, the other countries will want their central banks destroyed too. That is why you see chaos, fraud, cheating and lying everywhere right now. I know what the central bank system has done to this world. So release the Kraken!

Everything you thought was real has been an illusions. These bankers made you think you had a voice. There has been so much fraud in banking, sports, governments, business, science, religion, media, medical industry, education, etc. All to get you used to the way they operate.

What is coming is a revolution for the world. It will be the Great Awakening! I remember how I felt when I became enlightened. I almost ended it. How did you feel when you learned the lies of this world? The way you felt will be on a world wide scale.

Please do not lose faith in humanity. They will be scared. I told you in Occult Wars people will feel deceived thinking they have been fighting for the right side their whole life. History always repeats itself. Rule by debt only works if you believe it will.

The system is about to come crashing down. It's time to become banking heretics.
It is not just the banking system and law system that is corrupt it is just about everything. The whole world is one big lie and it is going to come crashing down. Even the census is a lie.

They keep telling us there is 8 billion people on this planet. They don't know!!!!! The numbers for every country have been inflated to make that country look stronger against foreign attacks. The world is finally waking up to the illusion.

The illusion only works if you believe it. Once you see and accept reality, you are free. You realize it's all fake. Those who don't want to wake up or want to keep the illusion going will go down with the ship. It is time for the people to rise up and say "No!"

I have said in my writings before that my readers need to fall in love with the word 'No'. Welcome to the World Revolution my dear readers. I am personally excited to be alive during this time.

This is the beginning of the entering of the Age of Aquarius. The ocean itself only obeys the laws of Nature. It's the ships on the ocean that go by Maritime Law. A law based on illusions.
