■Thread: What is the Trump Card?

1. This my personal opinion based on my military experience, analysis of indicators, open source information & common sense. I'm not talking about the card in my wallet.

Let's get into it.

2. Anyone with half a brain knows there is evidence of widespread electoral and voter fraud. We're waiting for the SCOTUS to rule on a number of cases, with all eyes on the brilliant case from TX. This was always the plan. Trump said so on Nov 4, 2020.
