So here are some ideas /thoughts. Trump is convinced. The confidence level about election being rigged is at same level as when he was telling people that he was spied on. Everyone laughed said it was crazy... few months later we find out.. its all true.

So, I've been thinking about the 2018 executive order. Specifically the 45 day time period.

2018 Executive Order Executive Order on Election Interference

Break down of procedure of the order.

When I saw all of the changes in DOD it shot off red flags. Trump was moving his people in place to get go through the process of the EO. He doesn't have to do anything its already law BUT the people managing it have to be trusted.

IF the EO is going forward the key person in investigating all of this would be General Nakasone.

Nakasone looks to be tapped for Chris Kreb position from Cybersecurity and Infrastructure Security Agency

Gen. Paul Nakasone, Cybercom and NSA Head, Named to 2020 Wash100 for His Efforts to Advance Cybersecurity Capabilities and Defend U.S. National Security

In September, Nakasone talked about the lessons learned from the 2018 midterm elections and highlighted efforts to prevent foreign interference during a panel at the Intelligence and National Security Summit.

“When we thought about the elections for 2018 last summer, one of the things that we immediately did is we went back and we took a look at 2016.”

Now very interesting coincidence of dates.

Nakasone goes into quarantine. Undisclosed but being military personal has high chance of being at Walter Reed on Oct 6

Trump is also at Walter Reed on Oct 3

Who else quarantined on Oct 3 ? per CBS
Chairman of Joint Chiefs of Staff
Vice Chairman
Army Chief of Staff
Naval Operations Chief
Air Force Chief of Staff
CyberCom Commander
SpaceForce Operations Chief
The Chief of the National Guard,
Deputy commandant of the Marine Corps

Everyone is talking shop at Walter Reed? We all saw the video Trump. He looked tired but surprisingly strong for having COVID... Media said he was on steroids…

So back to the 45 days after the election

Nov 4 - Day 1
2020 GSA Calendar - https://t.co/lIDkpAS3IF

Looks like on or before December 21st we will see if any of this actually happened ….. I think all the court cases are a smoke screen. Buying time to get this report together. Otherwise the pressure to concede would be too much...
