1/18 Why did Trump really create Space Force? Why is Trump promoting vaccines? Let's start with the Globalist white hats and the Globalist black hats. As a young man, Trump has long been an informant for the white hat world leaders to gather enough evidence from

2/18 corrupt democrats & rino republicans who plan to lead the world with Globalist black hatters.
Trump works with the Globalist white hatters whom some has awarded him w/ the Nobel Peace Prize. Biden works with the Globalist black hatters.

3/18 For years, scientists have worked w/ world leaders in finding the best route to reducing the population on Earth.
Whether you like it or not, Trump and Biden are BOTH in agreement with world leaders to reduce the population of Earth.

4/18 But Trump knows the Obama & Biden administration are corrupt and evil. The problem is that the left has been working for years with vaccine companies to create vaccines that can slowly kill off humans overtime in order to depopulate the world.

5/18 Trump, knowing this, has been in thorough investigation with vaccine companies. For years, he has been investigating which vaccine companies are working with the left to further their evil agenda. He is in the know of which ones have good intentions.

6/18 Now, let's take it to a higher level & look at Project Hyperion. They've been working in creating interstellar craft vessels that can transport thousands and thousands of humans to colonize habitable planets. https://t.co/fGi7yyWTcb

7/18 While the left is working on a mandatory vaccine to slowly kill us off, Trump is working w/ white hat world leaders & scientists that a vaccine will not kill us, but alter our genes to prepare for interstellar voyage & space colonization - his way to reduce population.

8/18 Read this article from 2005 regarding the future of human evolution https://t.co/OTSPBc3mLp
The article speaks of stem-cell research & biocompatible computer chips which has already come to fruition.

9/18 Since that time of the article in 2005, white hat evolutionary biologists & scientists have been working on a plan for humans to colonize other planets. Imagine what they already have prepared us for in this last 15 years since!

10/18 Catastrophes raging from super-floods to “plagues” (Covid-19) erase civilization, leaving remnants of humanity to go their own evolutionary ways, the article states. We truthers know that there are fraudulent numbers involved with the cases and death rates of Covid-19.

11/18 The corruption on the left goes so deep into the government including the Supreme Court. The left are working heavily to continue this false pandemic and fear mongering in order to continue their plan to slowly kill us off.

12/18 Trump knew this was coming. He had to get involved, so he created Space Force. His plan for Operation Warp speed is to deliver the safest vaccines to us that will engineer our genes to tolerate ultra long-term hibernation aboard interstellar vessels for space colonization.

13/18 Not just a vaccine to prepare us for space colonization, but one that would also protect us from future evil doings the left will try to install in us. The risks involved in this warp speed plan includes the side effects of deaths, unfortunately.

14/18 However, the amount of deaths would be at a more alarming rate if it were a vaccine given by the corrupt evil doers who have already turned this into a cloaked Human Evolutionary War.

15/18 Read this Harvard University article https://t.co/T7AUtkcdjh regarding Aromorphosis, a creation of closed systems that would be to support human of life outside the biosphere for extended periods of time.

16/18 Also, read about the quest to colonize space and the involvement with biotechnology & synthetic biology https://t.co/6nFYt0YnF6

17/18 Here is another interesting article written in 2005 regarding human evolution: https://t.co/YgTjT3l0Xj

18/18 This thread is based on my own theory based on self logical thinking and numerous articles regarding the future of human evolution, aromorphosis, biotechnology, and the preparation of human interstellar travel. Do your research and you’ll be quite amazed.
