AG Rosen move to the acting is very interesting and could be the final move in Trumps decision to use the 2018 Executive Order.

We know. All the DOD moves that took the team that uncovered spying against Trump and deputized them in the DOD.

Here is what we know about AG Rosen
Mr. Rosen has guided numerous initiatives, including an antitrust review of online technology platforms, criminal and civil opioids enforcement and legislation, investigations and prosecutions of IP theft and of cyberhacking,

Also

Rosen led the investigation on the Sackler Family. The family behind Purdue Pharma. Remember when Trump said big Pharama didn't like him?

So that to say he's getting things done. Much more interesting. The civil antitrust lawsuit against google

Finally the most interesting speech listed in the Department of Justice was web page.

Malign Foreign Influence in U.S. Elections Presented at Center for Strategic and International Studies
https://t.co/ab5KorTAu0

He explains what Malign Foreign Influence means to the Department of Justice.

He mentioned the Clinton campaign vulnerability to foreign government to influence her.

Then he goes into 2018 Executive Order 13848

Probably the most important part of his speech
We do, however, continue to see malign foreign influence efforts relevant to the 2020 presidential election.

Some foreign actors are covertly trying to undermine confidence in our elections because they are authoritarian governments opposed to representative democracy.

He outlines 5 Task Forces and Measures that are set up by the DOJ to combat these

Also important to note is his deputy AG Richard Donoghue

Donague served as JAG in The ARMY
he was a Military Magistrate Judge, Prosecutor, Defense Counsel, and Contract Litigator. He also served in the 82nd Airborne Division

Besides his military experience and knowledge of military law, as the US Attorney for Eastern District of New York, Donaghue oversaw the ongoing prosecutions of Chinese telecommunications company Huawei and several subsidiaries on racketeering charges and Huawei CFO Wanzhou Meng

Seth D. DuCharme will take his place as Acting U.S. Attorney for the Eastern District of New York

Who served as the Office's National Security Cyber Specialist and its representative on the Anti-Terrorism Advisory Council.

All of these people are moved into positions where they can act and contribute to tampering report. Simultaneously you have the biggest hack of federal institutions EVER.

If we(civilians know about it) it means that they have already investigated and know exactly where its coming from and who. All things point to the Ratcliff DOD and DOJ Rosen describes in his speech is not actually hacking of the systems but Covert or Deceptive Activities

So could this be another move in Trumps puzzle to move on the 2018 EO. Lets see time is running out.
