Openly Socialist, leaders Are Working for China.

[THREAD]

Despite all the false claims from now socialist, formerly democrat, leaders that "Trump and his associates work for Russia" we keep finding more and more evidence that it is the former democrat, now openly socialist,

(1) leaders in the "former democrat party" whom actually work for our enemies China, and Russia.

Now a new report indicates that Jon Ossoff has been getting paid by China at least $5,000 U.S.D.

(2) Although he is getting paid more, we simply don't know exactly how much he is getting paid by China.

Despite Ossoff himself claiming he hasn't received any money from China, at least he was paid $5,000 U.S.D.

(3) BTW, we don't know exactly how much he received from China, as the question he answered was: "If this is your first report, or you are a candidate did you receive compensation of more than $5,000 from a single source in the two prior years?

"YES"

(4) Here is a list of the single sources that have paid Jon Ossoff more than $5,000 in the two prior years.

https://t.co/0ZQiEUStVE

(5) So we know that Ossoff, according to his new claims since in the primaries he did not report this source of money, has been paid over $5,000 U.S.D. in the prior 2 years.

(6) But we don't know for how long, or how much exactly in total he has been paid by this Chinese company, whose owner has spoken against the pro-democracy demonstrations in Hon Kong, and against the independence of Hong Kong from

China.

https://t.co/s5YEw43h0b

(7) Yet despite the claims from Ossoff that he is in favor of the pro-democracy demonstrations in Hong Kong, in fact he has stated that he wants to use suppression and oppression against Trump supporters in the U.S.

(8) Just like his communist Chinese masters have been doing in China, Hong Kong, Taiwan, Tibet, etc.

BTW, Jon Ossoff wants a "new Civil Rights Act" and " a new Voting Rights Act." Apparently Ossoff wants to solidify voter fraud, and take away individual rights in favor for

(9) collective rights.

https://t.co/qbsKeiVDxQ

(10) I guess he doesn't want rights for "Trump supporters" more so since he works for China, like many, if not all former democrat, now openly socialist leaders are...

(11) Apart from Ossof, Swalwell has been caught as being a puppet of China as well, since his 2014 campaign was paid off by the fundraising done by a Chinese spy, with whom Swalwell had a relationship with.

(12) To this day Swalwell's uncle and brother are still in contact with that Chinese spy.

Then there is Feinstein and he driver being a Chinese spy whom worked for Feinstein for a decade or two.

(13) Then there is Joe Biden, and his family all whom have profited from China meanwhile Joe Biden has for years, and years claimed that the CCP/China should not be seen as an adversary to the U.S., and that their economic growth would benefit not just China but the U.S. despite

(14) the fact that China wants to REPLACE the U.S. and it's economy so that they are in charge of the global economy.

We shouldn't be asking anymore how many former democrat, now openly socialist, leaders in the U.S. are working for, and getting paid by China.

(15) The question is is there no socialist, former democrat, leader that doesn't work for China and is not getting paid by China...?

Another interesting article....

(16) Is that a surprise to anyone?

Despite claims from many rhinos that they were going to help President Trump and would follow his policy decisions after he

got elected how many rhinos claimed they were now with Trump but on the back scene back-stabbed him every time they

(17) could?

How many candidates were those rhinos telling Trump he should choose for "x" position and that they will not attempt to sidestep his changes in policy but in reality they were the "never-Trumpers" from the start and outright continued following Obama/Biden's old

(18) policies?

There were many times that it felt that President Trump was by himself for much of his administration as time after time allegations from GOP officials kept being sent to the never-Trump/left-wing news media.

(19) Heck, how many rhinos have been in cahoots with the now socialist, former democrat, party when even in the last lawsuit from Texas only about 126, originally 106, Republicans added their name to the lawsuit.

(20) Even among those whom added their names I would guess there are still several rhinos whom wanted Obama/Biden's policies to continue while claiming to be pro-Trump to make the pro-Trump Americans believe that those rhinos had finally sided with President Trump?

(21) President Trump was the only POTUS in recent times to have fought against the establishment.

He was met with assurances from rhinos that choosing x rhino for x government position was going to help his agenda, but in reality they were all, rinos and former democrat leaders

(22) working together to get rid of President Trump, or to at least stop him from actually choosing people whom would side with Trump's agenda.

The swamp runs very deep and is still strong.

Even after all the "investigations", the multiple millions of U.S.D. from tax payers

(23) that were wasted to "investigate and impeach President Trump, and the fact that it was proven that Obama/Biden and people in the Obama administration, many now working for the fake news channels, how many people have seen the inside of jail?...

Just one lowly FBI agent...

(24) Were even Barr or Durham in favor of law and order when they just dragged the "investigations" and hid facts such as the Biden/China deals until after the elections which helped Biden and not Trump?...
