The Proud Boys, led by Enrique Tarrio, arrested today in DC, have built a bridge between the Alt-Right + the Trump wing of the GOP. While they include men of color, their ideology is centered around white hegemony + patriarchy + celebrating violence against 'the Left.' A thread.

After the 'Unite the Right' rally in Charlottesville, the Alt-Right right collapsed in 2018 admits mass antifascist opposition. Tens of thousands took to the streets and as Richard Spencer explained, the Alt-Right was "pushed off the streets."

Far-Right organizers like Joey Gibson, who had built pan-far-Right coalitions that included neo-Nazis, white nationalists, militias groups, and the Proud Boys, lamented this reality, and pushed for a new street fighting coalition that could fight the Left in the streets.
