If you will indulge me a little more, I'd like to share another element of the conspiracy theories surrounding inauguration, because we're hearing a LOT about Trump becoming the *19th* president of the United States

(no threats of violence here)

OK SO - this truly bizarre story says that in 1871, the US ceased to be a nation and instead became a corporation that belongs to the city of London (attn @SadiqKhan)
AND if you see an American flag with gold fringe, well that represents the corporation NOT the country 2/

This, they say, is why the rich are privileged and the average guy can't get ahead. They do not explain why the City of London would do this to us, their American Corporation, but this is how we get the victim narrative introduced 3/

SO, the next step is that "Biden, Harris, Pence, Pelosi, etc." must be arrested before Inauguration for Crimes. We do not know who else is included in "etc" because, I suspect, figuring that out would take too much research on the part of whomever came up with this nonsense 4/
