I really enjoy those posts where people have so much to say that they need multiple tweets.

1/9

I think they're called threads.

2/9

This is kinda like one of those threads.

3/9

But I don't have a story to tell or anything interesting to actually share

4/9

I've now also worked out if you click the plus button below, you can keep adding to the thread

5/9

And get this, you can go back through all the tweets to then add your numbers!

6/9

I always wondered how people knew in tweet 1 that it was 1 of x tweets. Were the thoughts that clear in their head that they knew how many it would take? Did the edit it in a different program? Were they just really good at guessing?

7/9

Nope - they just used this thread feature and edited the numbers at the very end. Very sneaky.

8/9

This is the last one nine of nine tweets.

Click *like* if you've been inspired by this thread.

9/9

Oh look, even after you have finished the thread and clicked 'tweet all' you can come back and keep adding to the thread.

10/9

I was one of the first 9000 users on Twitter (#EarlyAdopter) - I can't believe I only just discovered this feature!

11/9
