@AoecoinB

#Twitter once again suspended our acct. Their targeted harrassment of us has never ended since day we began using 3 yrs ago under massive shadowban ever since 99% of the time. Once again they wrongly suspended us. We did a study on it to share & learn since they provide ZERO info

2/
We strongly invite @twittersupport to enter a deep dive discussion on this since they provide ZERO support, NEVER answer questions in over 100+ tweets we sent them, 8 appeals letters ignored & months & months of unlawful arbitrary suspensions without cause EVER mentioned.

3/
We have NO IDEA what they suspended us for here & of course their TOS says nothing about it nor could anyone EVER possibly discern what they could possibly be complaining about. Their TOS ALSO protects our Freedom Of Expression in the EXACT WAY we spoke the tweet under #18.

4/
Since Twitter's Dorsey has been COMPLETELY CLEAR that it is not the position of twitter to answer appeals but for ppl to languish in suspension unless they delete the tweet, & 37+ day suspensions when waiting are common & to be expected otherwise according to Dorsey on TV, Del

5/
This explanation in DETAIL is what is needed by Twitter on their website but they have REFUSED to EVER do this. They should do it for EVERY CASE have some commentary section for explanations so people can learn but they deliberately choose against this. Why? it seems obvious

6/
Twitter focuses 1000x more clearly on suppression of Freedom of Expression than they ever do on their actual product nor serving customers as in a decade or nearly they STILL dont even have an edit feature, then requiring people to DELETE tweets instead of editing them.

7/
The entire concept of deleting tweets versus editing is a clear message of Suppression of free speech rather than correction.

It's arbitrary totalitarian oppression from the shadows with no human interaction & zero explanations. It's Nazi Stazi style & devoid of humanity.

8/
I find the facts to be that Twitter's claim to be any kind of organization that supports freedom of expression to be a complete joke & false on any & every measure & there are plenty of examples. In fact every indication is to the contrary. & To make it worse, NO SERVICE!

9/
When I deleted the tweet, I also got this 2nd suspension message in error it seemed. When clicked the button, onward it went. Again zero explanation what the hell is going on with their system at all, leaving users confused & unable to ever be able to trust they are credible.

10/
Oh! I see, in addition to baselessly Falsely accusing us once again as always & without ANY explanation whatsoever as to their claims against us, they have suspended our ability to follow, like or Retweet for 3 days in further political persecution as they LIE "Freedom of Exp

11/
Since Twitter is CLEARLY a Fascist Totalitarian NAZI Dictatorship of the completely opposite of any organization engaged in freedom of expression like a Gab, Minds, or SocialCross actually IS, I will thread save this as probably they will be back to oppress my speech, AGAIN.

12/
@threadreaderapp unroll

13/
in 5 suspensions by Twits we've NEVER been given an explanation what we did wrong, they have ALL been arbitrary without ANY evidence whatsoever, 1 without even any tweet even mentioned just a baseless suspension without even telling us why, then LIE "Freedom of Expression."

14/
By posting the tweet in our picture, we are NOT re-posting the tweet, though our opinion & the FACTS are very clear that we are correct on their tactics. We are posting it for educational purposes for the public & so hopefully twitter can BEGIN to make more clear policy.
