I think Ultratech cement is worth tracking..Would be interesting if we get a hammer and this weeks closing above 5630..200wema + 61.8% fibo..@shivaji\_1983  
<https://t.co/CtNCfQ6yXX>

Cement companies are now is good buying zone for long term investors. Downside may not be more than 10-15% at max. Valuations extremely attractive.

As far as I remember cement business has always been a cartel for atleast past 20 yrs.
