Super Exclusive Thread

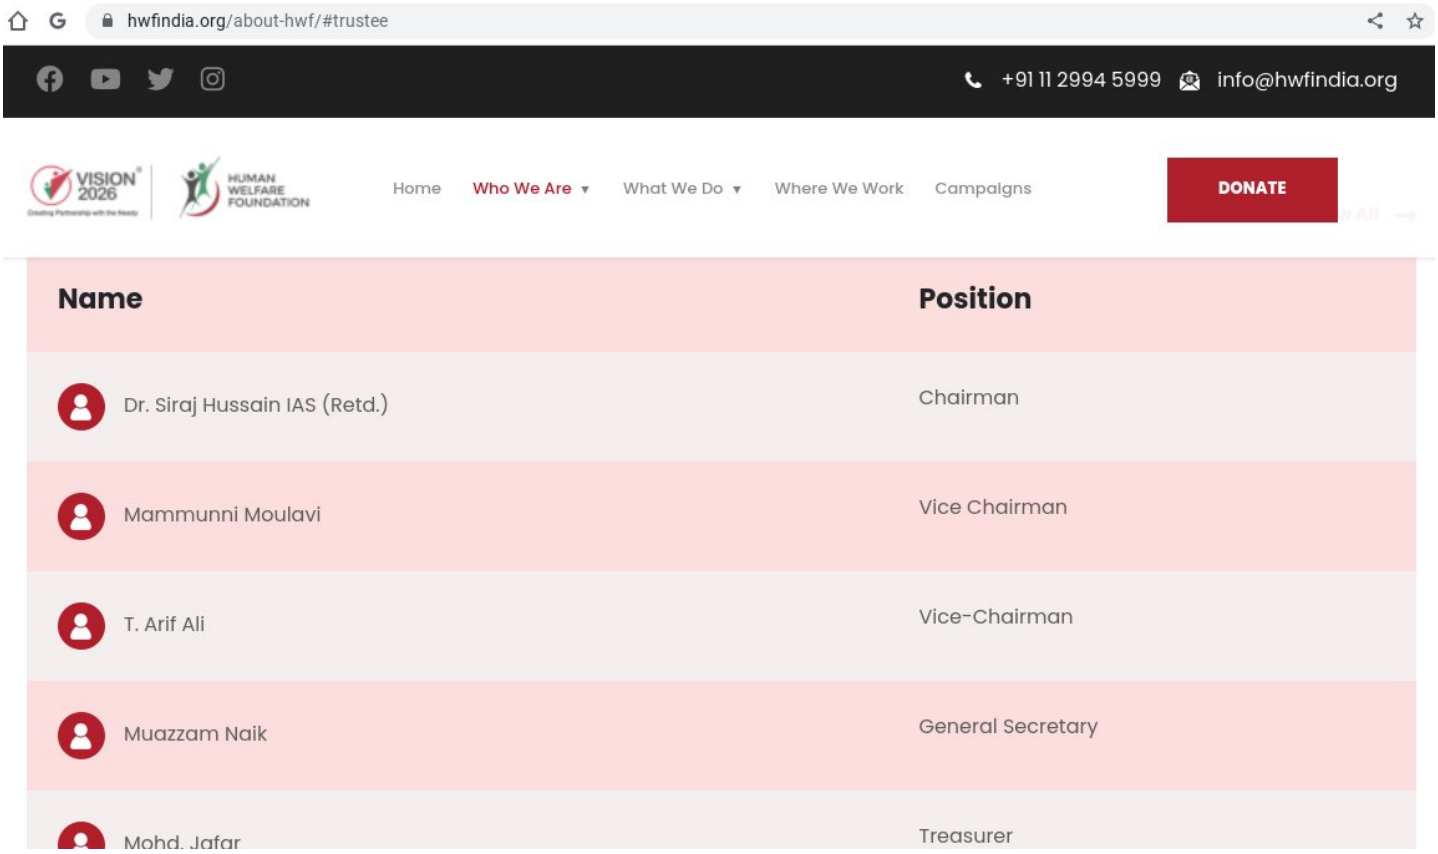

1 Yesterday the whole leftist gang, international anti-India gang, and a few radical outfits were supporting Afreen Fatima and her father. UP police have demolished the house of her father, Javed Mohammed. He was involved in the Kanpur riots!

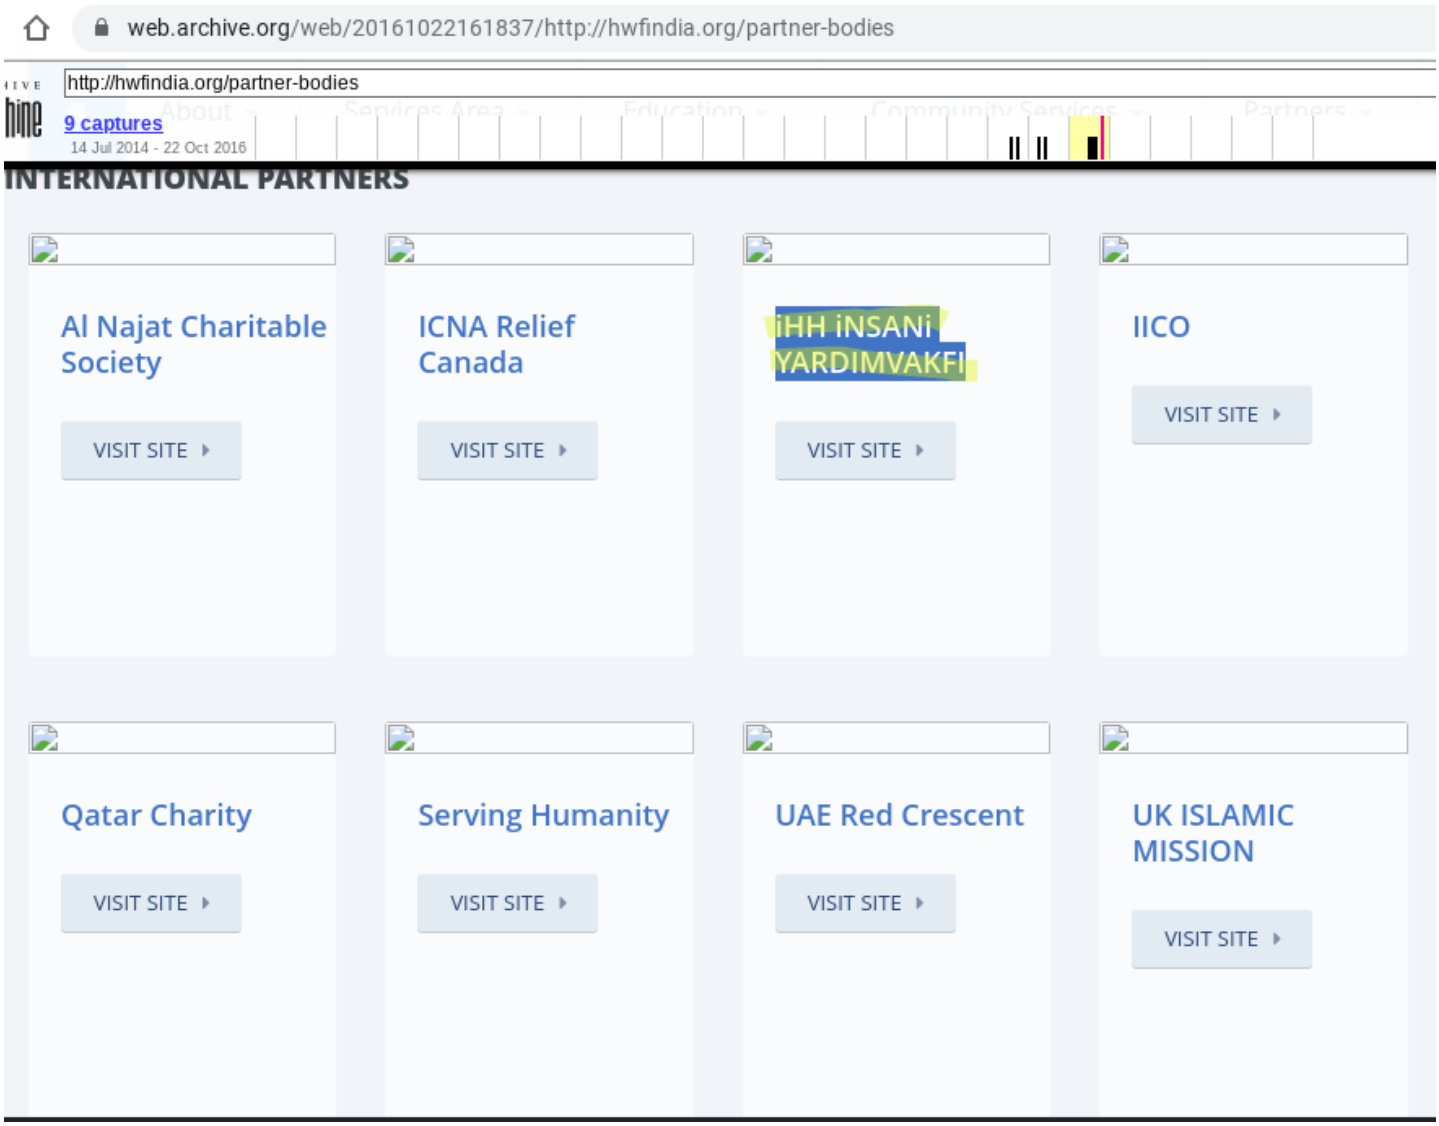

2. Javed Mohammed is a national leader of the Welfare Party of India. The welfare party is part of Jamaat-e-Islami Hind. Fraternity Movement is the student wing of the Welfare Party of India and Afreen Fatima is in their national team!

3. Jamaat-e-Islami Hind runs a web of NGOs with different names like Vision 2026, Human welfare foundation and Human welfare trust, etc...
This Human welfare trust has a partnership with many international NGOs. These NGOs support them.

4. One of the main supporters of the Human welfare trust is Turkey's intelligence agency-affiliated NGO IHH Humanitarian Relief Foundation (IHH).

5. IHH supports ISIS, Al-Qaeda, and other terrorist organizations very actively. They also helped them in supplying arms and other things!

Most of the casualties were reported on Mavi Marmara, a passenger ferry, one of three ships provided by Insani Yardim Vakfi (IHH), a Turkish humanitarian organisation, which is also known as the Humanitarian Relief Foundation, The Foundation for Human Rights and Freedom and Humanitarian Relief –IHH. It is banned in Israel, which accuses it of links to Hamas and Al Qaeda. The other ships were organised by the Free Gaza Movement, an international coalition of activist groups

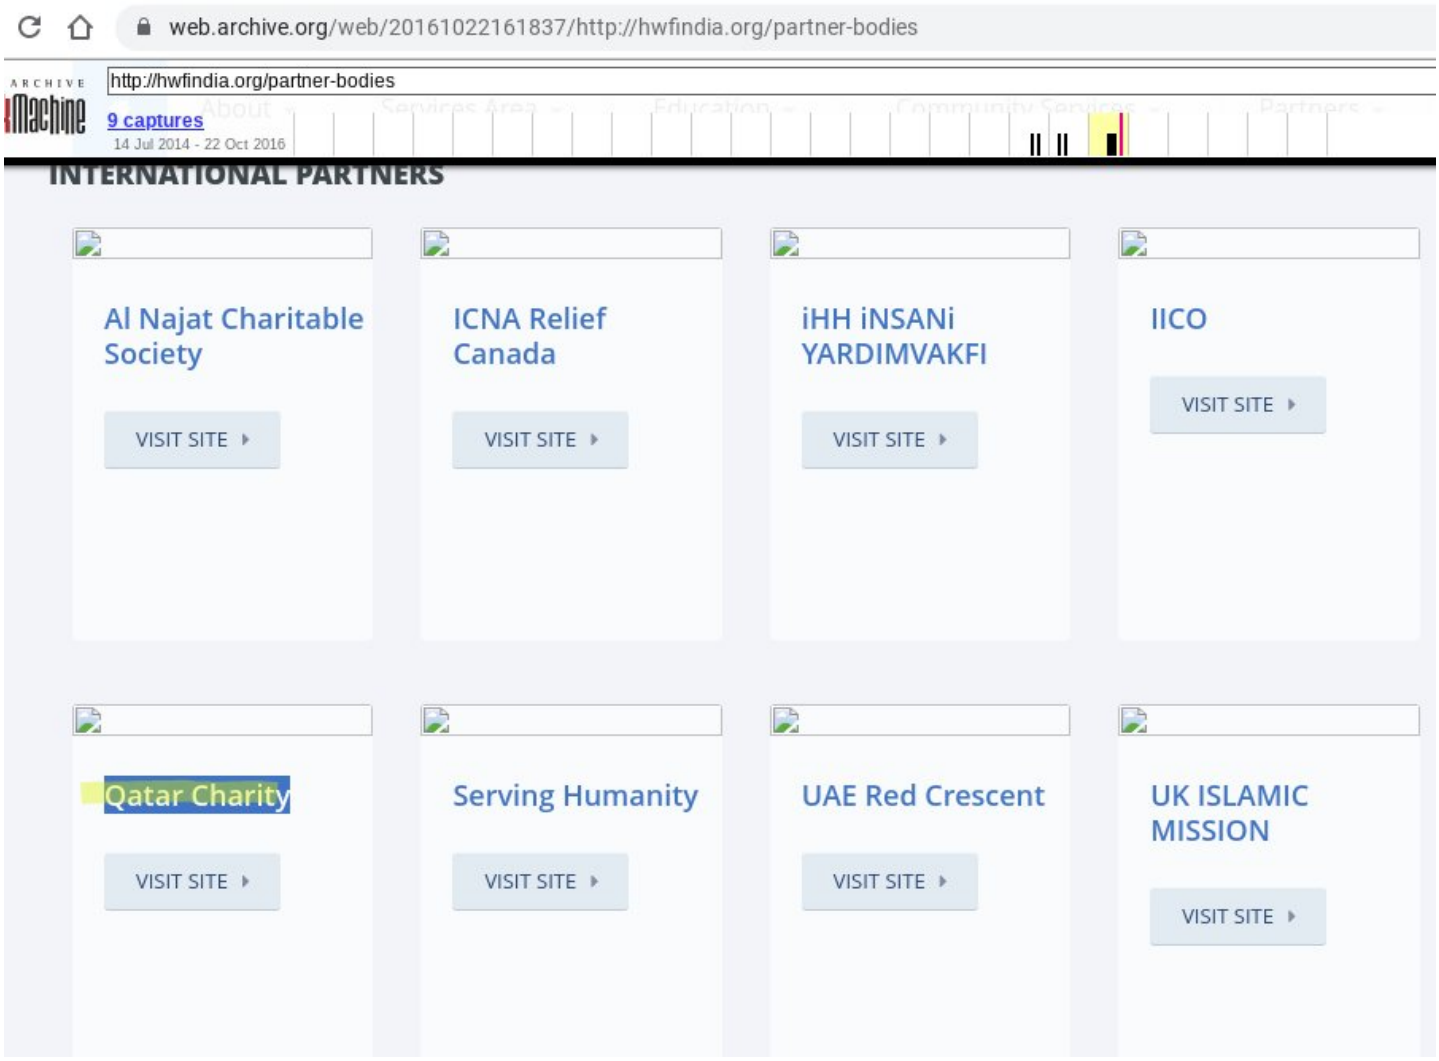

The ships were reportedly carrying supplies including cement, wheelchairs, paper and water purification systems. The flotilla's nearly 700 passengers were mainly Turkish, but also included nationals of the US, the UK, Australia, Greece, Canada, Belgium, Ireland, the Swedish author Henning Mankell, two Australian journalists and three German MPs.

According to reports from Pakistan, there were also some Pakistanis on board the IHH ferry. The Pakistani authorities were trying to enquire what happened to them. While the Israeli authorities were prepared to allow the humanitarian supplies to reach the people of Gaza after inspecting them at a port designated by them, the organisers of the flotilla were opposed to any inspection of the cargo by the Israeli

7. Kuwait Government funds the Human Welfare trust too, directly.

8. Another NGO Qatar Charity is also a partner and supporter of the Human Welfare trust. Qatar Charity has funded the radical organization Muslim Brotherhood too!

9. This is the reason why Afreen Fatima was playing the victim card on Qatari mouthpiece and propaganda TV media channel Al-Jazeera

eeradicalization.com/the-qatar-papers-how-qatar-charity-inserts-itself-in-european-muslim-affairs/

Qatar Charity and the Muslim Brotherhood

Qatar Charity poses as an independent NGO, but according to the research of the two French journalists, it is tightly interwoven with the Qatari state and advances its agenda abroad. Qatar's foreign policy is driven by both ideology — expressed in its strong support for political Islam— and by competition with its regional rivals over influence. In this regard, Qatar has entered a symbiotic relationship with the Muslim Brotherhood which goes back several decades to the period between the mid-1950s and mid-1960s when Brotherhood figures such as Abdul-Badi Saqr and Yusuf al-Qaradawi fled Egypt for the Gulf emirate, infiltrating its bureaucracy and education system. However, while Qatar supports the Muslim Brotherhood abroad through funding and propaganda — via the Qatari media channel Al-Jazeera — it is keen to keep the Brotherhood's power within its own borders limited.**[2]**

Qatar Charity is active on a global scale, but its primary focus is on Western countries where it launched a proselytization program called Al-Gaith. The funds invested in this proselytizing effort in Europe are substantial. As of 2014, Qatar had invested about 72 million Euro in 113 projects in Europe. Two years later, Salah Al Hammadi, QC's Executive Director, claimed that "Qatar Charity had established 138 Islamic centers in Europe, Canada and America which work to introduce the civilization of Islam, encourage dialogue between different peoples and preserve the identity of Muslim communities".**[3]**

The Muslim Brotherhood and its network of associations, mosques, and cultural centers seem to be one of the chief benefactors of this investment. Islamic-conservative NGOs such as the European Muslim Union, which vows to spread the wearing of the veil and claims to fight Islamophobia, and activists like Tariq Ramadan, have also received money. This Brotherhood network in Europe has been in the making since the late 1950s. Foreign money has always been one of the drivers of its expansion and in recent years Qatar has become its main sponsor. But what is the goal of this network? Many of the projects funded by Qatar are veritable super projects such as the

10. Delhi riots accused Asif Iqbal Tanha was staying at the same address where SIO and Fraternity Movement is registered! Both of these organizations are sister organizations of the Human Welfare trust. Isn't this amazing?

He was booked under UAPA but later court granted bail!

11. Terrorist accused PFI has also held a meeting with Turkey's intelligence agency-affiliated NGO IHH Humanitarian Relief Foundation (IHH) in 2018.

12. Leftist propaganda media is morally so corrupted that they are trying their best to save culprits who are trying to destabilize India since last many years.

Even mainstream media is not doing any research like this!

13. Human Welfare foundation is helping Rohingyas since 2012.

This is the reason why they are against the CAA-NRC!

14. All these propaganda news organizations are enemies of India.

They just love their funding. They don't care about reality.

15. Sadly, few big Indian businessmen and individuals are funding these propaganda news portals via IPSMF.

16. The same cartel started a hashtag against India just a few days ago.

Here is the detailed thread on it.
