Vaccine Exports :

1. How many Vaccines are exported from India ?

Total of 6.63 Cr Vaccines are exported from India.

2. What are the different categories under which export happened ?

Export of Vaccines happened under three categories.

- Grant : Humanitarian approach by GOI.
- Commercial Export - Agreements made by Company, not under the control of Govt.
- COVAX program - WHO Initiative.

3. How many Vaccines are exported as Grant ?

1.07 Cr Vaccines are exported to 47 Countries as Grant.

Grant is Humanitarian approach taken by Government of India.

This is the only export GOI has control on.

4. Which Countries received more than 1 Lakh Vaccines as Grant ?

Below countries received Vaccine grant more than 1 Lakh.

We gave grant mostly to our neighbors as its important to stop Covid in neighboring countries to keep India safe from spread.

5. Which countries received less than 1 lakh Vaccines as Grant.

Below countries received grant of less than 1 Lakh Vaccines from Indian Government.

6. How many Vaccines did Vaccine Manufacturer export under Commercial Obligations ?

3.58 Cr Vaccines are exported under Commercial obligations.

7. What are Commercial Obligations ?

The manufacturer either received money or Raw Material at the early stage which is used for Production of Vaccines .

As per agreements made, the exports are made by the manufacturer.

8. Which Countries received more than 5 lakh Vaccines under commercial Obligations ?

Below countries received more than or equal to 5 Lakh vaccines under commercial obligations.

Ex - UK got 50 Lakh Vaccines as the formula belongs to Astra Geneca, a UK and Swedish Company.

9. Which Countries received less than 5 lakh Vaccines under commercial Obligations ?

Below Countries received less than 5 Lakh vaccines as per the Commercial agreements.

10. What is Covax Program ?

Covax is a World Health Organization Initiative under which Resources are shared to develop the vaccine faster.

It also brings vaccine to the poor countries who cannot afford advance payments individually.

11. Is India part of Covax Program ?

Yes, India is part of Covax Program.

12. How many Vaccines India contributed as part of Covax Program ?

1.986 Cr vaccines are exported to 47 Countries under Covax Program.

13. Which countries received more than 3 Lakh vaccines under Covax Program ?

Below Countries received more than 3 Lakh vaccines under Covax Program.

As you can see the major beneficiaries are poor African/Asian countries.

14. Which countries received between 1-3 Lakh vaccines under Covax Program ?

Below countries received between 1-3 Lakhs under Covax Program.

15. Which countries received between 1-3 Lakh vaccines under Covax Program ?

Below Countries received below 1 Lakh Vaccines under Covax Program.

16. Can India would have not exported any of the above Vaccines ?

Yes, the vaccines given as Grant can be stopped by GOI.

But, India has stored enough Vaccines to meet the existing demand of January before giving it as Grant.

17. Can Manufacturer or India could have violated by not exporting vaccines under Commercial Obligations and Covax Category ?

Manufacturer would have faced heavy legal damages if the contract is not met.

India is not a Banana Republic to dishonor a contract.

18. Hope this thread will help in getting quantitative answers to the interested people.

End.
