Becoming a Web3 developer isn't hard!

If you have the right support.

8 Stunning resources to kickstart your Web3 career ■

1. Nader Dabit

Full-stack ethereum development. From Solidity to React, and Ethereum authentication.

https://t.co/0xGHlXKSrq

2. Buildspace

If you're a dev that's curious about web3 but not sure where to start this is the spot for you.

Start building cool stuff right now, earn NFTs, access secret work opportunities in crypto.

https://t.co/vlsX8HZ7Qk

3. OpenZeppelin

The standard for secure blockchain applications.

Deploy your NFTs, and learn how to create a Crypto coin through examples.

https://t.co/18Z2604VMh

4. Alchemy

Deploy your first Smart Contract, or a super precise Gas prices estimator, completely for free on Alchemy's docs.

https://t.co/RiFkYZpIHL

5. Vitto

Connect MetaMask, develop your first DApp, or deploy an NFT Marketplace.

Web3 guides, coming out every week (from now on).

https://t.co/rz9Amflhyi

6. Ethereum

The source of every truth.

Learn Solidity by examples, understand how Ethereum works, and master Smart Contracts.

https://t.co/BuGpcODIVz

7. useweb3

A collection of tens of resources, to learn Web3, and Blockchain Development, at every level.

https://t.co/Q31QnDiavm

8. Solidity by example

Learn Solidity using real-world cases. Learn how to transfer coins, create a bidding system, or how to deploy your own tokens.

https://t.co/jgVp3fctmx

Thank you for reading!
