So, MAGA want to succeed from the union? Fine. Let 'em go. We'll take our Blue states & as many progressives as we can out of Red states and form our own country. That includes Hawaii, Oregon, California, New Mexico, Washington, Minnesota, Wisconsin, Michigan, Illinois, and (1)

all the Northeast.

We believe this split will be beneficial to the nation, and especially to the people of the new country of New Puerto Rico, the U.S. Virgin Islands, Guam, and Washington D.C. We also get Costco and Boeing. (2)

To sum up briefly: You get Texas, Oklahoma, and all the slave states. We get stem cell research and the best beaches. We get the Statue of Liberty. You get Branson, Missouri. We get Intel and Microsoft. You get WorldCom. (3)

We get 85 percent of America's venture capital and entrepreneurs. You get Alabama. We get two-thirds of the tax revenue, you get to make the red states pay their fair share. Since our aggregate divorce rate is 22 percent lower than the Christian Coalition's, we get (4)

a bunch of happy families.
Please be aware that Nuevo California will be pro-choice and anti-war, and we're going to want all our citizens back from Iraq at once. If you need people to fight, ask your evangelicals. (5)

They have kids they're apparently willing to send to their deaths for no purpose, and they don't care if you don't show pictures of their children's caskets coming home. (6)

With the Blue States in hand, we will have firm control of 80 percent of the country's freshwater, more than 90 percent of the pineapple and lettuce, 92 percent of the nation's fresh fruit, (7)

95 percent of America's quality wines (you can serve French wines at state dinners) 90 percent of all cheese, 90 percent of the high tech industry, most of the U.S. low-sulfur coal, all living redwoods, sequoias and (8)

condors, all the Ivy and Seven Sister schools, plus Harvard, Yale, Stanford, Cal Tech and MIT. With the Red States, on the other hand, you will have to cope with 88 percent of all obese Americans (and their projected health care costs), 92 percent of all U.S. mosquitoes, (9)

nearly 100 percent of the tornadoes, 90 percent of the hurricanes, 99 percent of all Southern Baptists, virtually 100 percent of all televangelists, Rush Limbaugh, Alex Jones, and Rand Paul. We get Hollywood and Yosemite, thank you. (10)

Additionally, 62 percent of you believe life is sacred unless we're discussing the death penalty or gun laws, 44 percent say that evolution is only a theory, 53 percent that Saddam was involved in 9/11 and (11)
