The presence of the #terrorist & intelligence arm of #QudsForce on Turkish soil. How #Turkey enables Iranians to operate as a central base country, for the logistical & operational operation of QF & #Iranian intelligence vis-à-vis target countries in Europe & the Middle East.

1

Iranian intelligence sees it as #Iran's "operational backyard" vis-à-vis the Middle East and Europe, as #Turkey has a number of clear advantages, including:
- proximity to Iran and relatively easy mobility of operatinal it and through it (air and land)
2

- Iranian citizens do not need a visa to enter the country
- This geographical location central and attractive holding secret meetings with #terrorist organizations throughout the world (Middle East, Europe, South East Asia)
3

- Cooperation With headquarters of #terrorist organizations operating from #Turkey & neighboring countries such as Syria and Lebanon.
An increase in the level of daring & impudence of Iranians is identified due to the feeling that everything is allowed & possible in Turkey.
