■A deep dive into Kelly Loeffler.

Who is she and why is she corrupt?

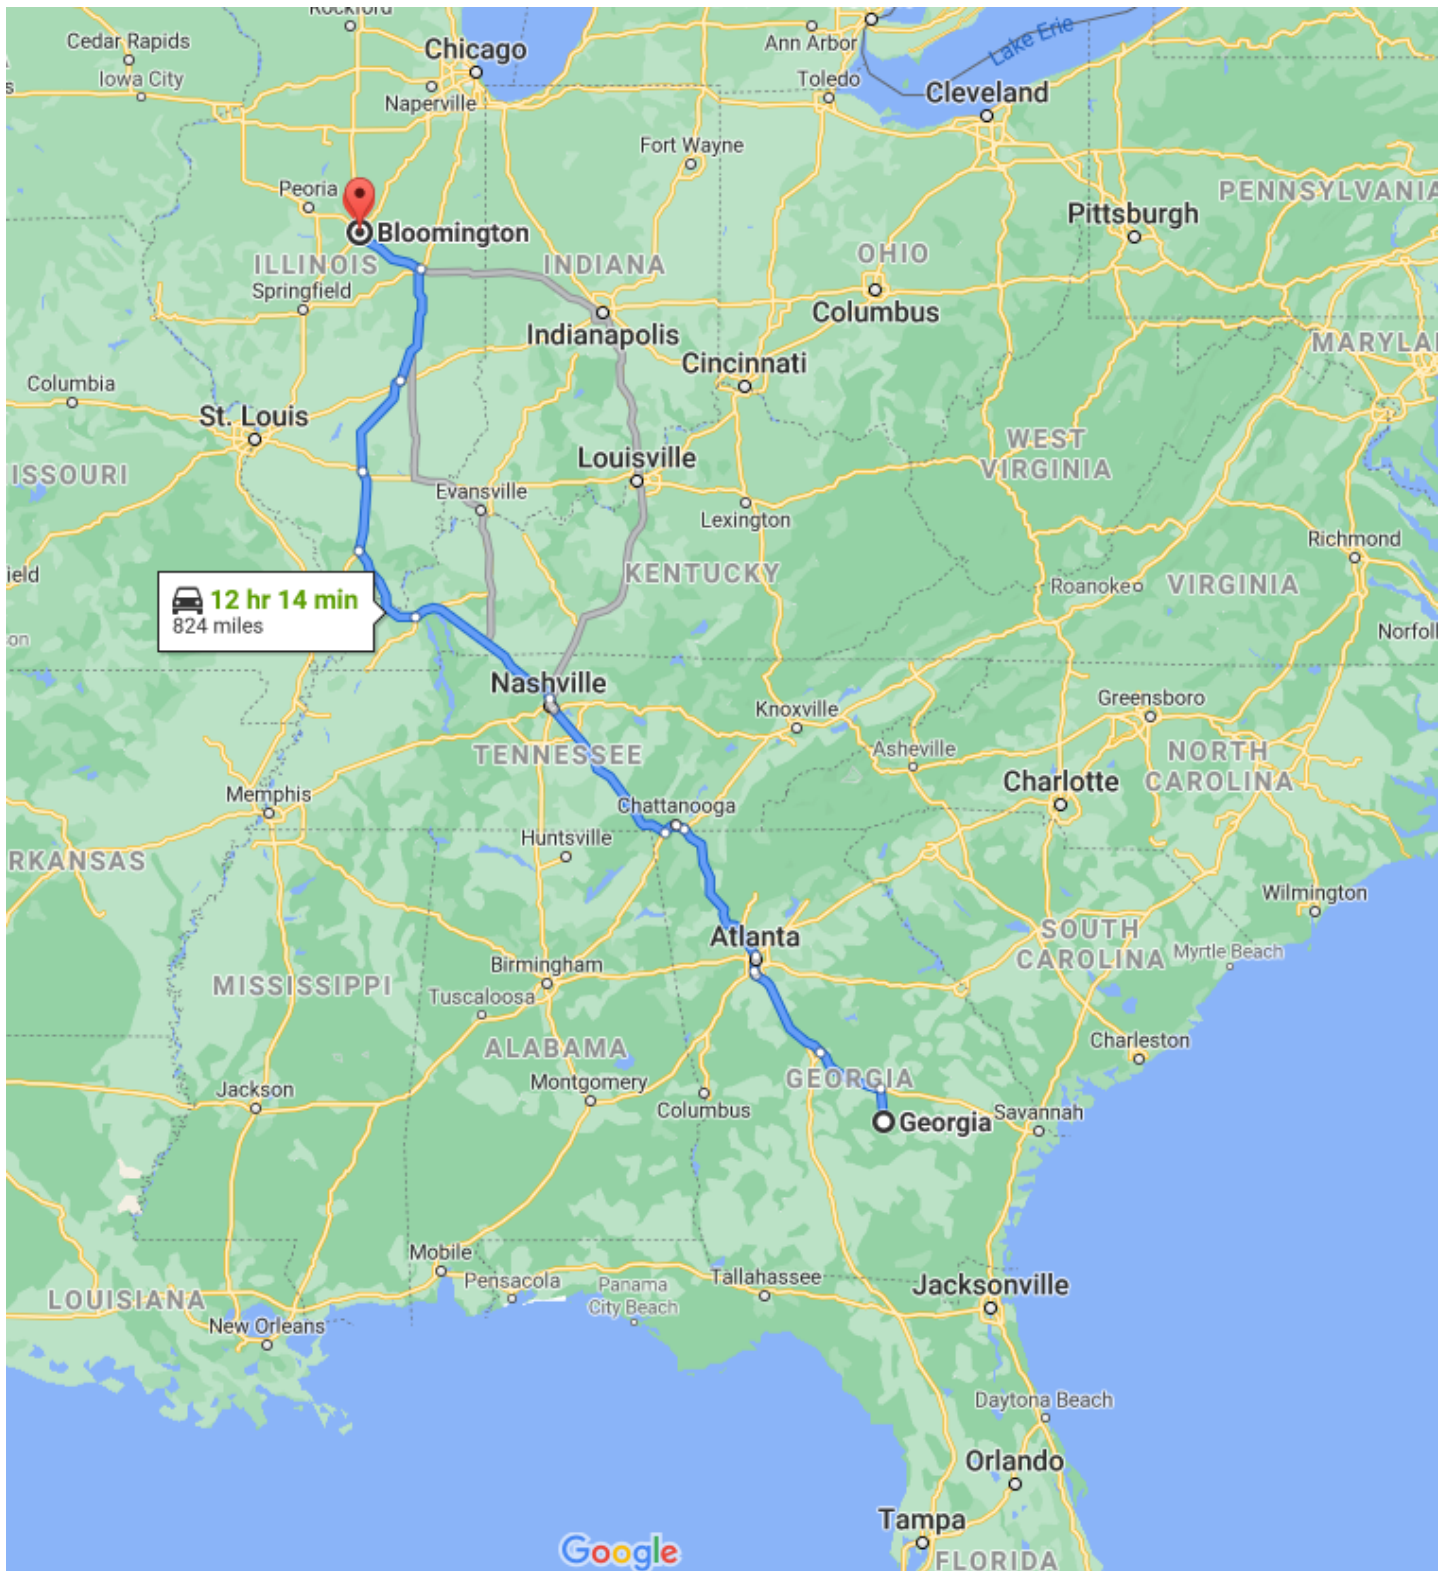

Sit down, relax, enjoy the rabbit hole.■

**THREAD.**

First things first, let's set up some background info.

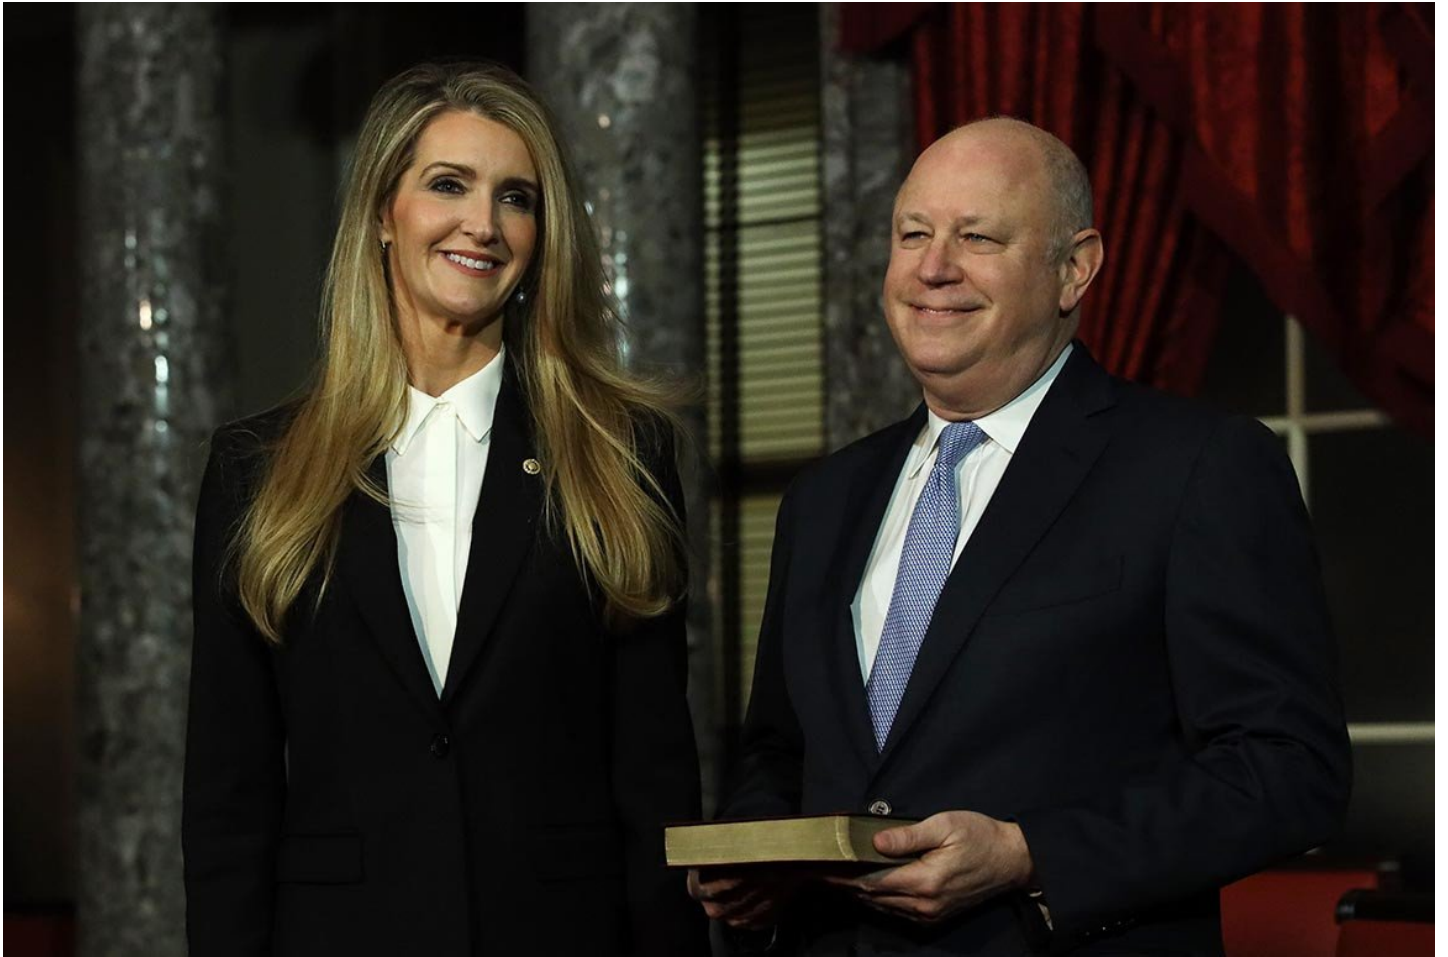

Loeffler, who is currently in one of two Senate run-offs in Georgia, is not a Georgia Native. Kelly Loeffler was actually born in Bloomington, Illinois.

Not a dealbreaker but keep this in mind going forward.

In 2004 Loeffler married Jefferey Sprecher who founded and is CEO of International Exchange the company which owns the New York Stock Exchange (Yes the one with a market cap of \$22.9 trillion).

He is also the Chairman of the NYSE.

Loeffler is the richest U.S. Senator, with her and her husband being worth between \$800 million and \$1 billion according to Forbes.

So much for “knowing what it’s like to live paycheck to paycheck.”

Kelly Loeffler wasn't actually elected to her current position.

She was appointed by Republican Gov Brian Kemp after U.S Sen Isakson resigned due to health reasons.

She took office as Senator for Georgia on Jan 1st, 2020

# Kemp Set To Pick Kelly Loeffler To Fill Isakson's Senate Seat

EMMA HURT • DEC 2, 2019

Kelly Loeffler will succeed three-term Sen. Johnny Isakson, who is stepping down at the end of the month because of health issues. She will be only the second woman in history to represent Georgia in the U.S. Senate.

Interesting side note:

Kemp chose Loeffler over Doug Collins who is a Georgia native and was Trump's choice.■

As we know Loeffler is insanely rich.

Did Loeffler pay for a senate seat?

Maybe.

## Georgia Governor, Trump Appear at Odds Over Senate Pick

In a White House meeting, Brian Kemp pushed Kelly Loeffler, while president prefers Rep. Doug Collins

President Trump quietly met Sunday in the White House with Georgia Gov. Brian Kemp and the governor's preferred pick to fill the state's Senate seat, Atlanta businesswoman Kelly Loeffler.

It's also important to point out that Loeffler is known as a Mega-donor.

She gave over \$580 000 to Trump's victory fund & has given over \$3.2 million to various political committees (97% of which was to Republicans)

She also donated the max - \$2800 to Trump's "Recount Account"

Other notable major donors to Trump Victory in the first three months of 2020 included hotel magnate Sheldon Adelson and his physician wife, Miriam, (\$1.2 million); Jeffrey Sprecher, chairman of the New York Stock Exchange, and his wife, Kelly Loeffler, a Republican U.S. senator from Georgia (\$580,600); Wisconsin billionaire Diane Hendricks (\$575,000); and

Ok so we know WHO her husband is and we know she was APPOINTED to the U.S. Senate on January 1st, 2020. So what happened next?

On January 24th three weeks into her senate career, Loeffler attended a private Senate briefing by Dr. Fauci and Dr. Redfield which outlined the emerging threat of coronavirus.

# Senate Health Committee Announces Briefing to Update Senators on Coronavirus

---

**WASHINGTON, January 23, 2020** — On Friday, January 24, the Senate Health Committee and the Senate Foreign Relations Committee will host a briefing for all senators with top administration health officials regarding the novel coronavirus outbreak that was first detected in Wuhan, China.

Senate Health Committee Chairman Lamar Alexander (R-Tenn.) and Ranking Member Patty Murray (D-Wash.) released the following statement:

“The novel coronavirus is an emerging public health threat. Senators will have the opportunity to hear directly from senior government health officials regarding what we know about the virus so far, and how our country is prepared to respond as the situation develops.”

The first photo is the stock she sold and bought immediately after the meeting (24th of Jan) and through to March 13th.

The first thing and the biggest sell-off involved \$18.7 in shares of Intercontinental Exchange stock (ICE) dating between Feb 26 - Mar 11.

Loeffler is a former executive of ICE & if you remember, her husband is the CEO of ICE.

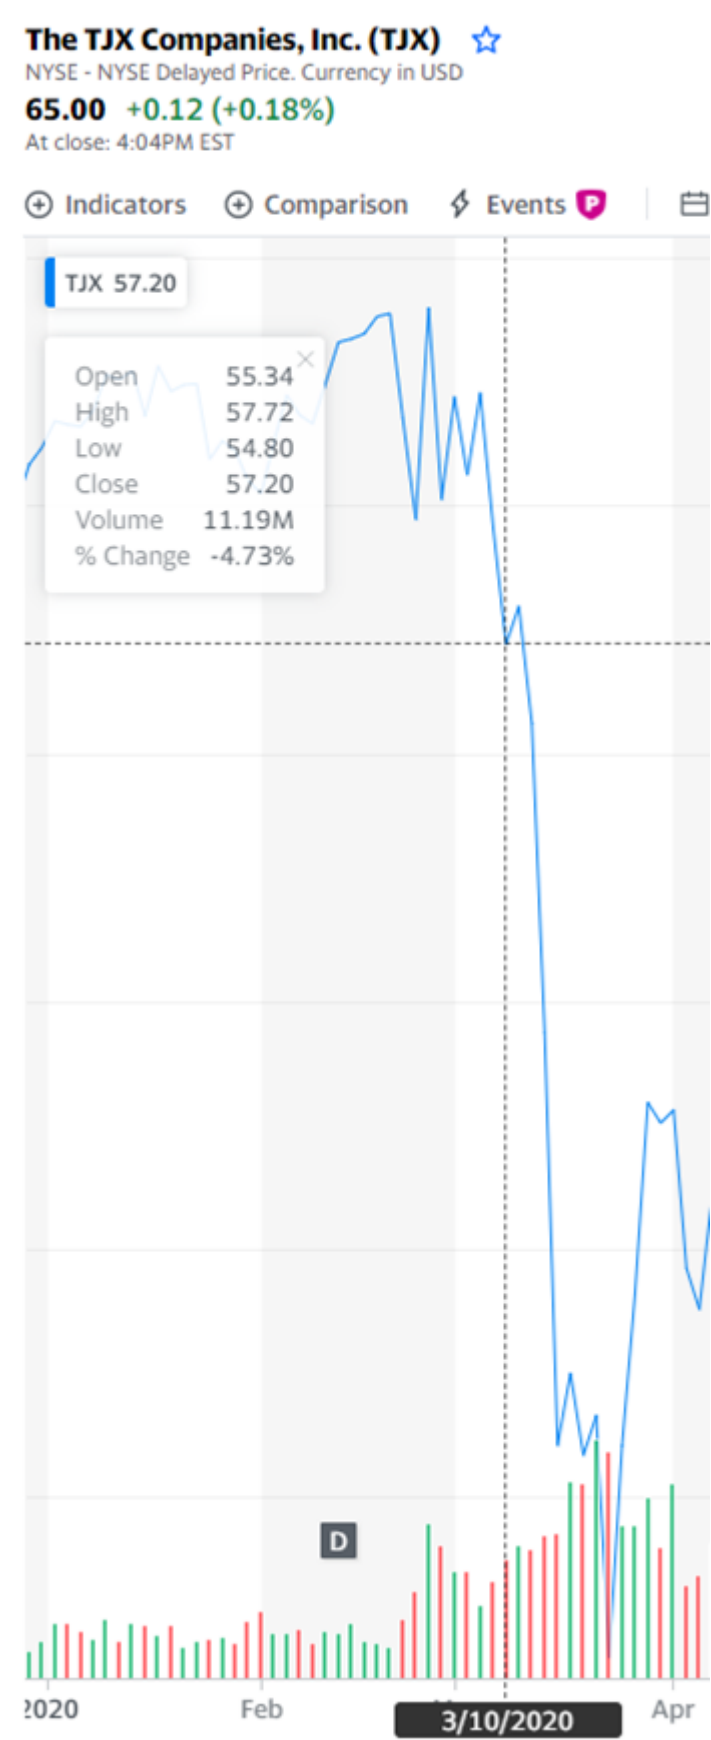

Well, this is what happened to the stock price.

During this same period, Loeffler and her husband also sold shares in retailers like TJMaxx and Lululemon.

Companies that would suffer during an economic downturn.

Here's what happened to TJMaxx just after she sold.

At this same time, they bought over \$200 000 worth of stock in a chemical company - DuPont.

DuPont is involved in manufacturing/supplying PPE.

As you know, PPE is crucial for a pandemic. Having stock could potentially be super lucrative.

<https://t.co/QSZLoxgcaZ>

For fairness' sake, DuPont didn't do super well straight away, but it is certainly is now later in the pandemic.

It gets even deeper.

Loeffler sold stock in an online travel booking company – Booking Holdings, on the 10th & 11th of March, less than a week after purchasing them.

After the markets closed, Trump announced the European Travel restrictions & Booking Holdings fell 11%.

On Feb. 14, Loeffler and her husband bought \$168 000 stock in Citrix, which provides teleworking software, and \$168 000 in Oracle stock a technology company.

Both which would be crucial for a work from home situation.

Here's what Kelly Loeffler was saying publicly during these trades.

- 1) She was playing up Trump and the economy
- 2) She was as expected COMPLETELY wrong about Trump and his response to the coronavirus.

<https://t.co/eJDvLpLPkz>

Democrats have dangerously and intentionally misled the American people on #Coronavirus readiness.

Here's the truth: @realDonaldTrump & his administration are doing a great job working to keep Americans healthy & safe. <https://t.co/DaDX5wpeUj>

— Kelly Loeffler (@KLoeffler) February 28, 2020

So what happened next?

As far as I know, there were three investigations\* into Loeffler's (R) potential insider trading.

- 1) Department of Justice.
- 2) Senate Ethics Panel
- 3) Securities and Exchange Commission

\*There were also 3 others being investigated - 2 Repub & 1 Dem.

Let's take a look at the Department of Justice's investigation first.

As you know, the DOJ is headed by Trump loyalist Bill Barr.

Having 3 out of 4 insider traders being Republican couldn't have been a good look for Trump's reelection campaign.

Well during the middle of the DOJ investigation on April the 29th 2020.

Jeffrey Spreecher - Loeffler's husband sent a \$1 million dollar check to the leading pro-Trump super PAC - America First Action.

<https://t.co/QafeGEtaB5>

JEFFREY SPRECHER	5660 NEW NORTHSIDE DR NW ATLANTA, Georgia 30328	INTERCONTINENTAL EXCHANGE, INC / CEO				04/29/2020	1000000.00	1000000.00	
---------------------	---	---	--	--	--	------------	------------	------------	--

For those that don't know.

America First Action (AFA) is also central to the Ukraine scandal.

Parnas & Fruman donated to the PAC while helping Giuliani solicit dirt on Biden from Ukraine.

AFA is a rabbit hole in itself that I will leave to another day

<https://t.co/CCVtfC347N>

So anyway. Loeffler's husband donated 1 million dollars to America First Action and this is what I speculated at the time after it was just being reported by the media.

<https://t.co/bk7Hzk5HyK>

Remember when Gordon Sondland donated \$1 million dollars and became ambassador to the EU. Let's see if this money is a get of jail card for Kelly Loeffler. <https://t.co/SAYv6NKb2A>

— Quarantined Life (@Real\_QL) [May 21, 2020](#)

Well turns out I was right because just a few days later.

Guess what happened?

Barr's DOJ dropped the charges.

<https://t.co/GhjAFmhPZI>

The Senate Ethics Committee also dropped their case in June after the DOJ had dropped theirs

I want to point out that they most likely dropped it because Loeffler doesn't DIRECTLY manage her funds she uses 3rd-party advisers at financial services e.g Goldman Sachs.

HOWEVER...

... as some have posited, this does not stop Loeffler or her husband from picking up the phone and calling them.

AND

Those who use others to manage their money can still influence that management by letting advisers know of crucial things like bailouts.

<https://t.co/Yn2i0KxmXI>

As for the Securities and Exchange Commission investigation, I'm not sure if it has concluded. In March the SEC issued a sharp warning for Senators who indulge in Covid insider trading.

But interestingly Perdue's (another thread) case has been renewed.

<https://t.co/agxRLcknQ8>

Moving back to our Loeffler rabbit hole journey.

Here's a video of Loeffler violating federal and ethics rules, which bar soliciting campaign contributions in federal buildings.

And I never thought I'd share a Doug Collins ad.■

But just bear with me.

Here he is attacking Loeffler for being profiteering off coronavirus.

It serves two purposes going forward:

- 1) Republicans attacking republicans
- 2) It's hilariously ironic.
