On December 22nd, a day after the #AgeofAquarius Final Activation, the #Cabal tried in another desperate attempt to destroy the #feminine energy at the #CongoVortex by attacking CAR's fourth largest city #Bambari

#UN, CAR, #Russian & #French forces repelled the attack

#ConfPress. M\xeame si la situation est tendue, la #MINUSCA souligne que #Bambari (centre #RCA\U0001f1e8\U0001f1eb) n'est pas tomb\xe9e entre les mains de groupes arm\xe9s & se dit d'xeatre prot\xe9ger la ville et sa populations comme elle le fait actuellement dans d'autres r\xe9gions du pays #A4P pic.twitter.com/R7dOFIrRmj

The master key for the energy grid around the planet is the #CongoVortex which is a huge #energyvortex anchored in #LakeKivu #Congo

This area was the landingspace of a special expedition of the #CentralRace more than 2 million years ago, anchoring a very powerful #Light presence

Much later this #vortex was taken over by the Reptilians who actually energetically controlled most of the Sub-Saharan Africa from that area

This is the reason why black magic is so widespread in Sub-Saharan Africa and why so many people there are possessed by Reptilian entities

The #CongoVortex was the entrypoint for the #Archon invasion in 1996

Since then, the #Archons are doing whatever they can to destroy the feminine energy in #Congo while the #LightForces are trying to heal the situation

The largest magnetic anomaly on the planet is located on the border of the CAR & Congo, centered on #Bangui the capital of the CAR, known as the #BanguiMagneticAnomaly

It is on the banks of the #UbangiRiver, a perfect conduit for the #torsionfield energies

<https://t.co/hGVsf9ifio>

South of the #BanguMagneticAnomaly is the #Congo #Goddess #Vortex, which is anchored by a circular mass beneath the jungles of the Congo

The gravity is uniform there and due to its density serves as #torsionfield attractor for the major gravitational forces of the solar system

If you feel guided, you can do the #mediation for the #GoddessVortex, a #rainbowspiral of energy, over the #Congo to assist in the healing of #Africa & anchor an #Angelic Presence into the physical plane

For instructions:

Here are the instructions to anchor the Goddess Vortex:

1. Lift your hands above your head and begin to rotate your body clockwise
2. While doing that, sing mantra iiiii (pronounced ee-ee) so that it vibrates throughout your body and visualize your body morphing into a brilliant pillar of Light, with millions of rainbow coloured stars scattered within that pillar of Light
3. Keep singing the mantra and rotating. After a few minutes, drop your hands close to your body and continue rotating clockwise
4. While doing that, start singing mantra eeeaaa (eee is pronounced as e in "America" and NOT as e in "Venus", and a is pronounced as a in "America") so that it vibrates through your body and visualize a rainbow vortex of Light expanding from your heart outwards throughout the whole planet. Call upon the presence of your spiritual guides, Ascended masters, Pleiadians, angels, twin souls, soulmates, soul families and other beings of Light.
5. Keep singing the mantra and rotating and stay in the presence of all those beings of Light for a while.

You can activate the Goddess Vortex anytime you feel guided to do so and this will strengthen the planetary network of Light and accelerate the purification process of the non-physical planes that will ultimately lead to the Event.

The instructions on how to anchor the #GoddessVortex can be found in this video:
