Nigeria's burgeoning defence industry is zooming ahead.

DICON has secured a contract to produce 152 MRAPs for the army. As well as six million rounds of small arms ammunition.

EZEGWU MRAP

DICONs R&D has been up and going. The army plans to test several technology demonstrators in the field. If they pass the field testing DICON will go into mass production of the equipments.

Anti drone jamming system made by DEMFAS aerospace systems Nigeria....Made in Nigeria Proudly Nigeria.
The mobile gun is an ideal anti-drone rifle that can be used when UAVs and drones are visually detected

The drone can be tracked even at long distances through a special binocular. When the UAV is located, the rifle and antennas with horizontal and vertical polarization are pointed towards the approaching drone and immediately block it....zap !! No this is not science fiction

PROFOCE ARA MRAP 2

Profoce Ara ''Thunder'' Mine Resistant Ambush Protected Vehicle.

PROFOCE Ara MRAP is Nigeria's first ever defence export.

Ultra light advance tactical infantry vehicle. Nigerian army plans to purchase 600 ATV in a production contract. The ATV is critical in providing troops with an agile means to get to and fro the battlefield as quickly as possible. This will lighten the load for infantry troop

Gun Trucks of various classification.
