CCHP's Executive Director, Mei Kwong, kicks off today's webinar with an introduction to @CCHPCA and @TheNCTRC! #MedicaidTelehealthCCHP

Sheri Gaskins from @CMSGov provides a great overview of telehealth in Medicaid! "Telehealth is not a service - it is a delivery mechanism." #MedicaidTelehealthCCHP

Telehealth

- Telehealth, in short, is described as using technology to deliver services.
- Services are covered in Medicaid and can be delivered using telehealth.
- Examples of technologies are asynchronous store and forward, two-way real time audio/visual communication, telephone, etc.
- Medicaid coverage of services delivered via telehealth not dependent on Medicare rules governing telehealth.

A telehealth toolkit has been developed by <u>@CMSGov</u> and provides an up-to-date view of telehealth in Medicaid! #MedicaidTelehealthCCHP

Telehealth Toolkit

- Provides states with statutory and regulatory infrastructure issues to consider as they evaluate the need to expand their telehealth capabilities and coverage policies. This guide provides a description of these areas and the challenges they present including:
 - Patient populations eligible for telehealth
 - Coverage and reimbursement policies
 - Providers and practitioners eligible to furnish telehealth
 - Technology requirements
 - Pediatric considerations
