Ever since Orban came to power in Hungary, everything has turned for the worse for the Hungarians. Hungary has had one of the biggest declines in freedoms since Orban took office, according to 'Freedom House' 2020 report, they've lost -21 in freedom points in the last decade.

Here's some interesting information about how life is in Hungary which Orban fanboys never talk about, they like to just focus on his 'anti-immigration' stance. Also, OECD gave Hungary a 5.6 which is less than the average which is 6.5.. https://t.co/mDm49qvKxg

While the the average Hungarian are being increasingly impoverished, meanwhile the jew Orban makes sure the jews in Hungary has it good by putting the "holohoax survivor" stamp on them.

And if that wasn't enough, Orban set aside $5.6 million for social welfare services for holohoax survivors of Hungarian origin living outside of Hungary

He's giving away all that money for fake holohoax victims when it's obvious the Hungarian people are in desperate need of those money as the a lot of the living conditions in Hungary needs to improve. So much for being a 'Hungarian' nationalist right?

What about his reaction to the COVID hoax? There's currently major restrictions going in Hungary, this is of course designed to impoverish the Hungarian people even further. Once again, the Hungarians are being made victims of communism.

As you can see, Orban has planned to vaccinate everyone in Hungary and is keeping the population hostage until they've either vaccinated everyone or a huge percentage of the population.

Other restriction include; Mask mandatory indoors and outdoors, only exceptions outdoors are parks and exercises. Gyms, libraries, museums and zoos are closed.Restaurants may only serve customers for takeaway and home delivery and more!

Orban like all other ZOG controlled leaders are following the same jewish script aimed at impoverishing the people in order to achieve the goal of the communist 'The Great Reset'. And all of the restrictions/lockdown imposed on the Hungarian people has led to increased poverty;

In the meantime, Orban's government is making sure that holohoax survivors are well taken care of.

Orban is not a nationalist, but a traitor who's obviously for the jewish criminal that is CHABAD and he's doing their bidding. He is an enemy of the Hungarian people.
