Major-General Mobilisingnigerians
@mobilisingniger

With little @Mbuhari has achieved alot in Nigeria security structure, if you budget 100 trillion dollars for security, it is not enough as long as we keep having population everyday. Under Buhari I will be listing some of the new changes we have from all security agencies

DIA - @MBuhari expands the scope of the is agency to function well as it supposed to be under a world standards Intelligence and also fight against insecurity. DIA are part of those in the NE helping the military in intelligence.

DSS - @MBuhari increased the recruitment process

From 600,700 to 3000, also enhance their capacity in intelligence reports, this agency people think they are not working but I can say that their work is the most stressful job in Nigeria imagine 1 field officer covering 200 towns and you must provide reports everyday. Also in NE

NIA- the NIA also are doing their best in intelligence gathering also it's recruitment increased from 100 to 700 personnels. And they are also active in Nigeria Counter-insurgency, NIA has been brain behind other agencies telling them how they need to work on the lapses.

Police- police has received more than I can imagine, from Criminal records lab, forensic lab, improve in intelligence, logistics, recruitment process, funding. The police are part of the AFSF which were trained in Belarus, Russia, Israel. Some of them are in NE doing greatly

Military- Nigeria Military has been the pride of Africa, Airforce has received more than others. Under Buhari Nigeria Military became a producer of this following

Gunboats
MRAP
WAR Ship
UAVs
APC
NATO ammo
Et Al

Also there is an establishment of Army air wing to support ground

Troops and also if anything is coming into our airspace Nigeria authorities are aware of it. Under this administration also the Government has increased the military intakes from 5,000,7000, 8000 to 10,000,15,000 and 18000 respectively. Gone are the days 100Aks are shared among

300 troops, the troops are not lacking logistics to push their fight. More equipments keep coming.

Immigration: Our immigration I can say have enjoyed under this leadership talking from joint ops to systemic Criminal database that is of the global standard. I wish to say more

NDLEA: although work is still ongoing in this agency. The first stage was to increase the manpower of the agency before about 2 oversee 2-3 LGA, alot of our past leaders has ignore this agency but Buhari took it up and they are in work in progress.

In all of this I will only say Nigeria is the country I belong and I will keep saying it nobody has taking care of security better than @MBuhari argue with your keypad. God bless Nigeria
God bless @MBuhari
God bless AFN
God bless me
